MATERIAL SAFETY DATA SHEET

Oliver Chemical Company, Inc.
2908 Spring Grove Avenue
Cincinnati, Ohio 45225

Date: 2/1/2000
MSDS Number: PC 40
Phone (800) 541-OLCO
Chemtrec 1-800-424-9300

1. PRODUCT IDENTIFICATION
PRODUCT NAME: CELL SOAK 521 COMPOUND
DOT PROPER SHIPPING NAME: Compound cleaning, granular, noi

2. HAZARDOUS INGREDIENTS
   Hazardous Components
   (Specific Chemical Identity) CAS No % WGT OSHA PEL ACGIH TLV Other Limits
   Sodium carbonate 497-19-8 30 None Est. None Est. N/A
   Oxybispropanol methyl ether 34590-94-8 5 100 ppm 100 ppm N/A
   Sodium metaasilicate 6834-92-0 20 None Est. None Est. N/A

   No reportable elements under Section 313 of the Superfund Amendments and Reauthorization Act

3. PHYSICAL DATA
   Boiling Point: N/A Specific Gravity (H₂O =1): N/A
   Vapor Pressure (mm. Hg.): Nonvolatile Melting Point: N/A
   Vapor Density (air=1): Nonvolatile Evaporation Rate: Nonvolatile
   Solubility in water: 25 g/100 ml (butyl acetate = 1)
   Appearance and Odor: White powder granules, slight solvent scent

4. FIRE AND EXPLOSION DATA
   Flash Point: NA Flammable Limits: NA
   Extinguishing Media: water spray, alcohol foam, CO₂
   Special Fire Fighting Procedures: Use NIOSH/MSHA approved self-contained breathing apparatus in areas where this material is involved in a fire. This product is nonflammable.
   Unusual Fire and Explosion Hazards: Protective clothing for skin and eye protection should be worn to protect against highly alkaline chemicals.

5. REACTIVITY DATA
   Conditions contributing to instability: Under normal conditions this product is stable.
   Incompatibility: Do not mix with acidic products.
   Hazardous Decomposition Products: None
   Conditions contributing to hazardous polymerization: None
6. HEALTH HAZARD INFORMATION
Route(s) of entry: Eyes, skin, and ingestion
Health Hazards: Acute: Burns skin, eye (possible permanent corneal damage), mucous membranes of the respiratory tract, mouth, throat, esophagus and stomach. Chronic: Local effect may consist of multiple areas of superficial destruction of the skin or of primary irritant dermatitis.
This product can be irritating to the respiratory track if inhaled as a mist or if the material is vaporized.
Dermal contact is expected to be the primary route of exposure to this product. This product is considered corrosive to the eyes and skin.
Signs and symptoms of exposure: Burning eyes, redness of skin.
Carcinogenicity: Not known to be carcinogenic or mutagenic.
Medical conditions generally aggravated by exposure: Sensitive skin
Emergency and first aid procedures
Eyes: Object is to flush material out immediately then seek medical attention. Immediately flush eyes with large amounts of water for at least fifteen minutes holding lids apart to ensure flushing of the entire surface. Washing eyes within one minute is essential to achieve maximum effectiveness. Seek medical attention immediately.
Skin: Wash with plenty of water for fifteen minutes. Remove contaminated clothing and wash before reuse. Footwear should be decontaminated before reuse. Seek medical attention if symptoms are present.
Ingestion: Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting. Give large quantities of water. If available, give several glasses of milk. If vomiting occurs spontaneously, keep airway clear. Seek medical attention immediately.

7. ENVIRONMENTAL PROCEDURES
Steps to be taken in case material is released or spilled: Using appropriate protection (impervious gloves, coveralls, boots, goggles, etc.) contain spill. Remove as much as possible and reuse if possible. Neutralize remaining traces with dilute mineral acids to a pH of 6 - 8.
Waste disposal Method: Due to widespread variance in disposal regulations, consult federal, state, and local regulatory agencies for proper disposal of this product.
Precautions to be taken in handling and storing: Good industrial hygiene practices should be adhered to when handling and storing this product. Avoid contact with undiluted product.

8. INDUSTRIAL HYGIENE CONTROL MEASURES
Respiratory Protection: Where required use only NIOSH/MSHA approved respirator following manufactures recommendation where mist or spray of concentrate may be generated.
Ventilation: Use local ventilation where spray or mists of concentrate may be generated.
Eyes: Chemical splash goggles and face shield should be worn when working with this product.
Protective Gloves: Gloves coated with rubber, synthetic elastomers, PVC, or other impervious material should be worn when handling this product to minimize skin contact.
Other protective clothing or equipment: Standard work clothes should be worn. Wash soiled clothing in soap and water and dry before reuse. Eyewash facilities should be accessible.

This Material Safety Data Sheet was prepared in accordance with 29 CFR 1910:1200. All information, recommendations and suggestions appearing herein concerning our product are based upon tests and data believed to be reliable, however it is the user's responsibility to determine the safety, toxicity and suitability for their own use of the product described herein. Since actual use by others is beyond our control, no guarantee expressed or implied is made by Oliver Chemical Company, Inc. as to the effects of such use, the results to be obtained or the safety and toxicity of the product nor does Oliver Chemical Company, Inc. assume any liability arising out of use by others of the product referred herein. Nor is the information herein to be construed as absolutely complete since additional information may be necessary or desirable when particular or exceptional conditions or circumstances exist or because of applicable laws or government regulations.
ACIDULINE
REACTIVITY: 0
FLAMMABILITY: 2

For industrial or institutional use only.

The Cell Soak Compound series is made expressively for United Industries of Ohio, Cincinnati, Ohio, USA.

SAFETY GUIDE
CAN CAUSE EYE OR SKIN IRRITATION.

KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED.

CAUTION:
If is recommended that no water be used whenever possible.

FOR AUTOMATIC IN-PLANT RECIPE, WITH WATER SOLUTIONS 2% OR GALLON OR SOLUTION OF SOLUTION SHOULD BE CIRCULATED.

1. CELL SOAK 521 COMPOUND IS STABLE AND RESISTS RUST. ALLOW TO COOL TO ROOM TEMPERATURE BEFORE USING.
2. COMPLETELY IMMERSE THE COMPONENTS, THEN ALLOW TO SOAK 521 FOR 5 MINUTES. COMPLETELY IMMERSE THE COMPONENTS, THEN ALLOW TO SOAK 521 FOR 5 MINUTES. COMPLETELY IMMERSE THE COMPONENTS, THEN ALLOW TO SOAK 521 FOR 5 MINUTES.
